A-Z SERVICE

WITH FULL SUPPORT

Lessons, activities, meals, accommodation and supervision will all be organised for you. Our experienced, multilingual team is here for you before, during and after your stay to ensure you have the experience of a lifetime.

TEACHING METHODOLOGY

Teaching generally takes place in the mornings, from Monday to Friday, but in some cases, it will take place in the afternoon. You will be integrated into a small group of your level, after sitting an evaluation test on the first day of classes.

The teachers always teach in their mother tongue. Because they are especially trained for teaching languages to young learners and teenagers, they are experts in creating a relaxed and fun atmosphere, with an emphasis on communication.

Lessons will cover all the main areas of language use, from writing and speaking to reading and listening, in a fun and playful way, to encourage you to engage in classes and start using your new skills as soon as possible.

At the end of your stay, you'll receive a certificate issued by the school attesting to the language level you've achieved.

UNACCOMPANIED MINORS SERVICE

Most airlines offer a service for young people who are not used to travelling on their own. The Unaccompanied Minors (UM) service is strongly recommended for children under 13 and some airlines insist upon it.

This service is generally payable to the airline companies and partner schools offering this full accompaniment service. The fees charged by the partner schools for this extra service are indicated on our website in the "options/extras" section of each destination. The fees charged by the airline company will be invoiced to you at the same time as your child's plane ticket.

SUPERVISION

Responsible and enthusiastic group leaders monitor the safety and well-being of the participants during activities and outings, and at night in the residence.

Even though our programmes include many varied activities, students have some free time to rest or spend time together playing games or just hanging out. For younger learners, free time is usually spent on campus under the supervision of activity leaders. Excursions to the city may include periods during which the students are allowed to roam freely while supervisors provide regular meeting points in order to check in and ensure all students are safe and happy.

More independent teenagers will enjoy more free time, either on campus or downtown, to shop, stroll and socialise with their new friends. However, they will always be given a meeting point where they will meet with the activity leaders at regular intervals.

Whatever the age of the participants, we will make sure that the partner schools do everything in their power to provide them with supervision adapted to their age in order to guarantee their safety.

ARRIVAL AND TRAVEL

Transfers are legally compulsory for students under 18 years old, unless an adult brings them to the school at the beginning of the programme and picks them up at the end of their stay.

AT THE TEACHER'S HOME

Looking for the best immersive language courses abroad for juniors? How about a programme that encourages them to speak their second language 24/7 alongside focused, personal lessons with a teacher who knows their preferences and learning objectives? If this sounds appealing, our At the Teacher's Home programme is the perfect fit for you.

Live and study with a fully qualified language teacher through this unique programme that pairs one (or two students travelling together) with a host that will provide juniors with private language courses abroad based on their interests and language level. The student will be placed in a fully native environment, learning by using the newfound vocabulary in daily situations, taking school knowledge to a whole other level! Whether preparing for an exam, trying to improve language level in a limited time frame, or just not as comfortable in a classroom, this programme is perfect for students looking for a smart holiday!

SHARE THE EXPERIENCE!

Want to learn a language in total immersion with a friend or family member? Take advantage of our special offer for two students travelling together! Both participants should have a similar language level and interests.

10 LESSONS (1-TO-1) PLUS ACTIVITIES:

The best part about learning a language is using your new skills to make new friends through your favourite activities! Students will have 10 hours of tuition per week, while staying in their teacher's house, alongside up to four activities or excursions per week. Students can choose their activities from cooking, tennis, golf, sailing, yoga, local history, music, art, and much more, or swap an activity for an excursion if preferred. For courses of two weeks or more, you'll also have an additional excursion on the weekend.

LIFESTYLE PROGRAMME (1-TO-1)

Language learning often happens in a classroom, but sometimes the best type of learning can happen in normal day-to-day interactions! In this programme, you'll be placed with a welcoming host family and treated as part of the family, as you pick up your language through cultural immersion as opposed to formal classes. There are four cultural excursions per week, in addition to a weekend excursion that's included for courses lasting over 2 weeks.
