MOTIVATING CLASSES

Fun and engaging, the classes are based on modern, interactive methods so learners make fast progress. In a stimulating and international class atmosphere, students are encouraged to communicate with their classmates from around the world. Everyone studies in a class suited to their language level.

DYNAMIC TEACHERS

Especially for younger students, learning from qualified, experienced and enthusiastic native speakers is the best way to learn a language. Different age groups benefit from different teaching methodologies, and all of our teachers are experienced in the needs of juniors.

EXCITING AND VARIED ACTIVITIES

Learning isn't just something that happens in the classroom: our programmes all include an excellent range of activities for all tastes. Group activities foster new friendships.

EXCELLENT ACCOMMODATION OPTIONS

Whether you want to live socially in a student residence or share the daily life of a local family at a homestay, we will find your perfect accommodation.

SUPERVISION

Responsible and enthusiastic group leaders monitor the safety and well-being of the participants during activities and outings, and at night in the residence. Of course, supervision is adapted to different age groups.

It pays to travel together! If you book with a friend or family member, you'll both get a great discount.

SMART HOLIDAYS

TEACHING AND SUPERVISION

Teaching generally takes place in the mornings, from Monday to Friday. You will be integrated into a small group of your level, after sitting an evaluation test on the first day of classes.

The teachers always teach in their mother tongue. Because they are especially trained for teaching languages to young learners and teenagers, they are experts in creating a relaxed and fun atmosphere, with an emphasis on communication.

Outside of class, experienced activities coordinators supervise your leisure activities and ensure that your stay is a success. In the case of any problems, the school's group leaders are available 24/7 thanks to an emergency telephone line.

At the end of your stay, you'll receive a certificate issued by the school attesting to the language level you've achieved.

ARRIVAL AND TRANSFER

You will be met upon arrival by a transfer service that will bring you to your accommodation and back to the airport on your final day.

Some families plan their holidays in the same region where their children go for a language stay. In this case, we encourage parents to bring their child themselves by car, which allows them to visit beautiful regions at the same time. If you are using other types of transport, you will also be taken care of by the school as soon as you arrive and will be brought to your place of accommodation.

Transfers are legally compulsory for students under 18 years old, unless an adult brings them to the school at the beginning of the programme and picks them up at the end of their stay.

UNACCOMPANIED MINORS SERVICE

Most airlines offer a service for young people who are not used to travelling on their own. The Unaccompanied Minors (UM) service is strongly recommended for children under 13 and some airlines insist upon it.

After check-in on the day of departure, you hand your child over to the airline representative, who will accompany your child through the airport and all the way to the boarding gate, where they will be met by a member of the cabin crew. Upon arrival, an airline representative will hand the child over to a school representative. On the way back, the school representative will assist your child with the check-in process at the desk, where they will meet an airline delegate who will take them through security and hand

them over to the cabin crew during boarding. You just have to wait for your child and the host at the arrival airport.

This service is generally payable to the airline companies and partner schools offering this full accompaniment service. The fees charged by the partner schools for this extra service are indicated in the "options/extras" section of each destination. The fees charged by the airline company will be invoiced to you at the same time as your child's plane ticket.

FREE TIME AND SUPERVISION

Even though our programmes include many varied activities, students have some free time to rest or spend time together playing games or just hanging out.

For younger learners, free time is usually spent on campus under the supervision of activity leaders. Excursions to the city may include periods during which the students are allowed to roam freely while supervisors provide regular meeting points in order to check in and ensure that nobody is missing.

More independent teenagers will enjoy more free time, either on campus or downtown, to shop, stroll and socialise with their new friends. However, they will always be given a meeting point where they will meet with the activity leaders at regular intervals.

Whatever the age of the participants, we will make sure that the partner schools do everything in their power to provide them with supervision adapted to their age in order to guarantee their safety.

PRICES

Our prices include study, full-board accommodation and the activities/excursion programmes mentioned in the description of leisure activities. In addition to the standard programme, some schools offer intensive courses, sports activities (tennis, surfing, diving, sailing, horse riding, football, etc.) and cultural outings/excursions. For further information, consult the "options, supplements" for each school. Some programmes also offer a wider choice of additional optional activities which are to be paid for on-site. Sometimes, the airport transfer is included in the price, otherwise it is also indicated in the "options/extras" column.

We recommend that you bring around \$50 of pocket money per week to buy phone credit, snacks, drinks, souvenirs, etc. and another \$50 to cover the cost of optional activities offered on-site. This amount should always be adapted to the individual.

ACCOMMODATION

Finding the right accommodation is crucial to the success of your language study stay abroad. Whether in the welcoming environment of a host family or with your friends in a residence, your accommodation encourages you to discover the culture around you through communication.

With the right accommodation, you can make the most out of your classes and devote yourself 100% to the sports and cultural activities on offer. Host families and residences are selected according to strict criteria. We stay in permanent contact with the accommodation officers in each of our partner schools, so you can relax knowing that you are in good hands.

RESIDENCES: INTERNATIONAL ATMOSPHERE

Share different points of view, enjoy an intercultural experience and make friends without borders! You will stay in a shared or single room, and will be supervised by the qualified school staff. There are usually showers on each floor of the building. The accommodation also includes full board, with breakfast and the evening meal typically served in the residence and the midday meal taken in the school's cafeteria or on an excursion.

For the youngest students, accommodation is in a campus residence. The main meals are served in the canteen of the residence, the midday meal is usually provided as a packed lunch in the school or during outings or excursions. The group leaders in charge of watching over the students also live in the residence and are available to them on a 24-hour basis. Residential accommodation is the perfect way to live with others in a group and to make new friends.

HOST FAMILY: A HOME AWAY FROM HOME

Staying with a host family has numerous advantages. You will benefit from the security of a friendly environment, enjoy the company of the family and discover how people really live there. Generally speaking, during the week, you will be provided with your breakfast and the evening meal. For the midday meal, you will eat with the other students in the school's cafeteria or the family will provide you with a packed lunch. At the weekends, you will be provided with full board.

This type of accommodation is best suited to independent students who will be able to get to the school on their own by using public transport or the bus system put in place by the school.

LEISURE

Parties, sports, football, volleyball, tennis, shopping, visits, excursions or BBQs on the beach... so many opportunities for you to enjoy yourself in a new language!

Organised and supervised by activities coordinators, the rich programme of sports, art, games and cultural activities also includes exciting excursions where you will discover the country in which you are staying. The activities have the double benefit of helping to form friendships and encouraging you to use the language outside of the classroom.

CULTURES & ENCOUNTERS = 100% FASCINATING

Seaside, mountains, big cities, countryside... we have destinations for all tastes! Whether you enjoy excursions to beaches or theme parks, visits to museums or to fascinating historical sites, you will find something in your activities programme. Some visits are already included in the price of your stay, while others will be offered as optional extras. Activities immerse you even more in the culture of your host country and a wide range of adventures await you.

Studying abroad with other students leads to many unforgettable moments: with all the friends you make, your phone will be beeping all day long with notifications from every corner of the world!

SPORT & LEISURE = 100% FUN

Let off some steam after class with numerous sports activities each afternoon, including swimming, beach volleyball, basketball, football, ultimate frisbee, surfing and many more. Several group games are also organised, including treasure hunts, tournaments, competitions, workshops and board games. These diverse activities are an excellent opportunity to meet the other students from the school outside of class. And the evenings? Party time!

QUALIFIED SUPERVISION = 100% SAFE

The activities coordinators organise and oversee the afternoon and evening activities. They have been chosen for their energy, their enthusiasm and the attention they give to young students. The optional sports courses are given by specialist instructors who are all qualified and experienced professionals.

This option is ideal for students who have specific goals in mind, like exam preparation or developing certain language skills, like grammar or conversation.

THE PROGRAMME

We offer language courses in the teacher's home in the UK, Ireland, France and Germany. Our teachers, who are chosen meticulously in order to offer the best possible study environment, are specialists in teaching foreign languages and some are also teachers at nearby primary or secondary schools. With this type of course, your teacher will not only help and correct you during classes, but also at all times you spend together. At the end of your stay, you will have acquired solid language skills that will allow you to express yourself more freely.

DESTINATIONS

COURSES

Intensive english programme (host family) (14-17 years)

Lessons: 28 x 50 min

Levels: elementary (A1) to advanced (C1)

Students/class: max. 10

Schedule: 09:00-12:50 + 13:40-15:30

This programme offers you the flexibility of a short language stay of as little as a week – and it's available all year round! You'll take 28 general English lessons per week in small classes with 10 students or less. You'll also get 3 free activities per week so you can practise your English in a real-world setting. Please note that this programme is better suited to more independent students, as there will be periods of free time during which students are unsupervised.

ACCOMMODATION

Host family

As accommodation is part of your learning experience, the school carefully selects the English-speaking host families. Whenever possible, two students of the same native language will not be placed with the same family. Half-board accommodation is provided, with breakfast and the evening meal included. Many lifelong friendships are made through the unique experience of living so authentically in local culture. Single rooms are not available during high season. Students under 18 will therefore share a twin room with another student their same age and of a different mother tongue. Outside of the high season, twin rooms are only available for students travelling together.

For the lake, the centre provides boats, canoes, kayaks and watersports equipment, with staff supervision to ensure safety at all times. What's more, the centre also welcomes young Irish students to the camp, so international students can meet and interact with English-speaking locals. Finally, the school is renowned for its "leave no trace" excursion, which encourages participants to take part in environmentally friendly activities.

COURSES

Lessons: 5 x 90 min

Levels: beginner to advanced (C1)

Students/class: max. 12

Schedule: 18:30-20:00

Then comes the practice: your teachers will accompany you on activities throughout the day and encourage you to practise English and make progress. For instance, you'll learn how to sail, how to make a film in English and learn why it's important to clean your boat after each use in order to protect the ecosystem. After dinner, you'll meet your teachers to tell them about your day. These 90-minute sessions will give you an opportunity to go over essential grammar and vocabulary to be able to communicate in English. This way you can improve your English skills in a fun way while discussing topics like social networking, cinema, renewable energy or environmental awareness.
